

Dryer/Exhaust Vent

DV4 Series

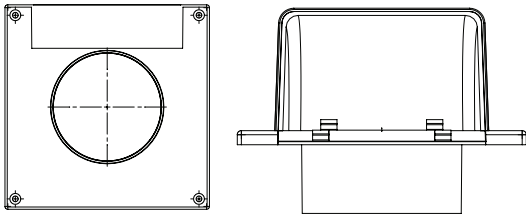

The Primex Dryer/Exhaust Vent (DV4) is a simple, durable and aesthetically-pleasing solution for venting residential dryers.

The low-profile, one piece design accommodates standard 4-inch ducting. UV-stabilized polymer resin offers long-lasting protection while eliminating leaky seams on the vent hood.

FEATURES & BENEFITS

- Low-profile one piece design.
- Accommodates 4" ducting.
- No leaky seams on the vent hood.
- Made from UV stabilized polymer resin.
- No screen to allow for lint exhaustion.
- Durable, long-lasting.
