

Standard Trim Plates

201 Series

The Primex Trim Plate Series (201) is a collection of finishing plates for electrical, plumbing and custom applications.

The Series consists of five different models configured for pre- or post-fitting installation.

Use the 201R and 201W together for retrofit applications where the fixture is already installed.

FEATURES & BENEFITS

- Excellent for door bells, HVAC Pipes, electrical outlets, water pipes.
- Eliminates leaky joints and maximises water protection with one-piece mold.
- Integrity of the building envelope is maintained with seamless mold and over-sized flange.
- Long lasting durability with UV-protected, impact resistant, polymer resin.
- Reduces chance of injury with no sharp corners or metal edges that can cut or scrape.

TECHNICAL DRAWINGS

COLOURS

- Snow White (01)
